

## Earlsdson, Coventry

## Building Over Drainage Survey Project Value | £250

**RMC Water** specialise in building over / near a sewer for property extension applications.

**RMC Water** has over 25 years professional experience working within the water industry.

We pride ourselves on our standards of health and safety and technical knowledge to deliver a cost effective report to our clients to the highest technical standards.

From a call to **RMC Water** to the survey and report being ready we achieve a 3-day completion record.

The report includes a block plan on the sewer location including connections.

An inspection report to WRC standard - CCTV drainage condition assessment (WRC - Manual of sewer classification 5th edition).

Electro location of drains and sewers is required for mapping purposes.

We pride ourselves on our standards of health and safety and technical knowledge
