

Swansea, South Wales

Pollution Survey

Project Value | **£1,500**

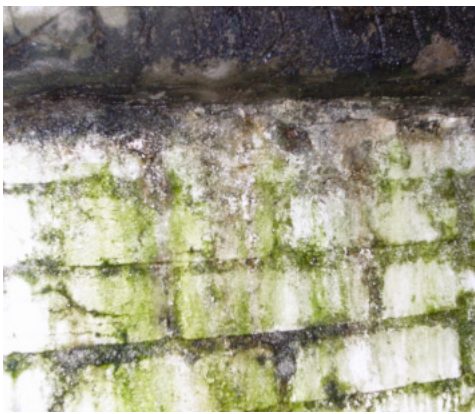

A high profile property management company instructed **RMC Water** to investigate a pollution / public health nuisance at a property they manage.

The issue was highlighted by the local water company and concerns raised.

Fully complying with its corporate environmental responsibilities, **RMC Water** completed a detailed survey for the affected property.

Using CCTV, electro location **RMC Water** was able to map the drainage assets. Once a detailed plan was produced **RMC Water's** experience in drainage law highlighted the responsibility of the broken sewer to be that of the Water Company.

The report was presented to the Water Company, which they accepted, and repairs undertaken by them, which were estimated to be over £10,000.

Fully complying with its corporate environmental responsibilities, **RMC Water** completed a detailed survey for the affected property.
