

**Groundwater Dynamics Limited
 Edgbaston Cricket Club, Birmingham**

**Project Management
 Project Value | £15,000**

RMC Water is acting for a client who is installing a new surface water infiltration drainage system into the UK and Ireland.

Over the 7 installations to date, **RMC Water** has assisted with the key stages of implementation:

- **Feasibility**
- **Financial appraisal**
- **Site supervision**

The first installation in the UK was at Edgbaston cricket ground.

The new system is designed to meet the new Regulations on Sustainable Drainage Systems.

RMC Water has assisted with the implementation of a cutting edge new surface water infiltration drainage system
